

## King of the Road

You ask me what is good about America  
Splendid isolation  
I'm in my own little world  
I'm in my car  
All that is right here  
is in this intersection  
It matters but for a second  
I'm the center of the universe  
no one else sees me  
I'm the ruler of this city  
I am the king of the world  
full tank of gas  
takes me where I want to go  
I am a greater man than Columbus  
write my own charter  
I give me life  
there is no one  
on the road tonight  
I wrote the song that is on the radio  
I play it loud and you can't hear  
it tells me what I want to know  
King of the road, baby  
I'm the king of the road  
I'm gonna wreck your world  
I'm all that matters  
the rest is gone in just a moment  
I roll up my windows  
there are no lights  
I'm going faster  
He's bigger than myself  
There is no more suffering  
I have vanquished all  
I've made the perfect world  
I fly the perfect car  
All that passed before me  
I am erasing  
20th century America  
I'm gonna be a 2,000 man  
None remain that can touch me  
King of the road tonight
